

MALIBU BUNK

Assembly Instructions

Complies with Australian Safety Standard – AS/NZS 4220:2003 Bunk Beds

COMPONENTS

- a) Safety rails x 2
- b) Bunk ends x 2
- c) Side rails x 4
- d) Set of Wooden slats x 2
- e) Wood screws x 8

TOOLS REQUIRED FOR ASSEMBLY

- Rubber mallet
- Electric drill with socket
- Spanner

Step 1: Install two (2) side rails to bunk ends for lower bunk.

Step 2: Install two (2) top bunk safety rails into holes in bunk ends.

Step 3: Install two (2) side rails to bunk ends directly under safety rails.

Step 4: Ensure wedges/side rails are driven firmly into place.

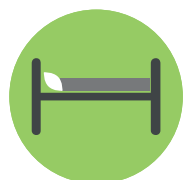

Step 5: Install one set of slats on top bed and hook over lugs in rails.

Step 6: Repeat Step 5 with second set of slats on lower bunk.

Step 7: Use four (4) screws to fix top bed end slats to side rails. Use a screwdriver/drill to fix them from underneath bed. Repeat with lower bunk.

PLEASE ENSURE THAT ALL RAIL WEDGES ARE FIRMLY DRIVEN INTO BRACKETS WITH A RUBBER Mallet OR SIMILAR.

ALL FITTINGS SHOULD BE CHECKED PERIODICALLY TO ENSURE SAFETY OF OPERATION.
