**ALL YOU NEED
IS AN ALLEN KEY**

A SPACE SAVER

The brand new, heavy-duty HideAway Bunk - the first of its kind - proudly and passionately Australian made and Australian certified. The HideAway blends into any room with flexible fold-away features and a sleek (but robust) frame. It makes cramped and stuffy rooms a thing of the past.

3 MINUTES IS ALL IT TAKES

Remove the safety rails in seconds and place them inside the bunk frame for easy and safe storage. The HideAway Bunk could not be more convenient and practical.

Opens and closes in 3 minutes

CONFIGURATION

The HideAway can be configured as a single over single or leave the bottom bunk folded up to create a loft meaning more space for storage, a study nook or a chill out space. The HideAway comes with our UltraSoft Mattress for added comfort.

The HideAway is designed so that the mattress easily folds away into the bunk meaning no mess, no parts floating around the room and more importantly no fuss.

CONVENIENCE

No more climbing over siderails or balancing on the ladder to make the top bunk, the removable side rail makes housekeeping a breeze. The HideAway is perfect for busy hostels, cabins and camps where quick, convenient turnover is the key.

The HideAway allows anyone to turn their room into a flexible, spacious and comfortable area where lengthy housekeeping and playing bunk tetris are things of the past.

The UltraSoft Mattress is a lifesaver for any busy business. It's anti-microbial, waterproof features make it easy to wipe clean so you can welcome your guests day in day out knowing you have the number one mattress protector on the market.

INSTALLATION

The HideAway Bunk must be fixed securely to the wall. Whilst the HideAway is designed to be easily installed, it is recommended that this is carried out by a qualified trades person.

When closed and installed to wall:

Depth 260mm
Height 2085mm
Width 2050mm

When open:

Depth 1005mm
Width 2050mm
